

Workgroup Poll – Expedited Milestone or Waiver Request

This form should be submitted to the workgroup chair by each workgroup member. Once returned, the lead program should submit all response documents and one summary document with all responses to the Regulatory Management Division director and the lead program Regulatory Steering Committee Representative and upload them in ADP Tracker.

Background

Title: Oil and Natural Gas Sector: Emission Standards for New, Reconstructed and Modified Sources Reconsideration

SAN: 5719.8

Request: Expedite

Milestone: Final Agency Review

Stage: Final

Rationale:

The EPA is working on an expedited schedule to finalize the rule titled, "Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Reconsideration", Tier 2, 5719.8. This action is a reconsideration of subpart OOOOa and will finalize amendments on specific topics which EPA has granted reconsideration on, streamline implementation, and improve cost-effectiveness of compliance. Due to the accelerated schedule of this rulemaking, we are requesting a 10 day FAR review.

Response

Name: Mike Harris

Office or Region: Region 5

Agree ☐

Disagree ☒

If disagree, describe concerns:

10 days is not enough time to review the package, compile comments, and brief upper management on the Region's FAR position. With this being a final rulemaking, and since this action is not subject to any court-ordered deadline, a 15-day FAR review period is reasonable and beneficial to the rulemaking process.
